

The MEAM Approach

MEAM is a unique coalition of charities – Clinks, DrugScope, Homeless Link and Mind – focussed on adults facing multiple needs. These individuals experience a combination of problems such as homelessness, substance misuse, mental health problems and offending and are often poorly supported by traditional services.

Using the MEAM Approach we support local areas across England to design and deliver better coordinated services, improve outcomes and reduce costs. The MEAM Approach provides a practical seven-stage guide, which areas can adapt to local circumstances. The diagram below briefly introduces the Approach.

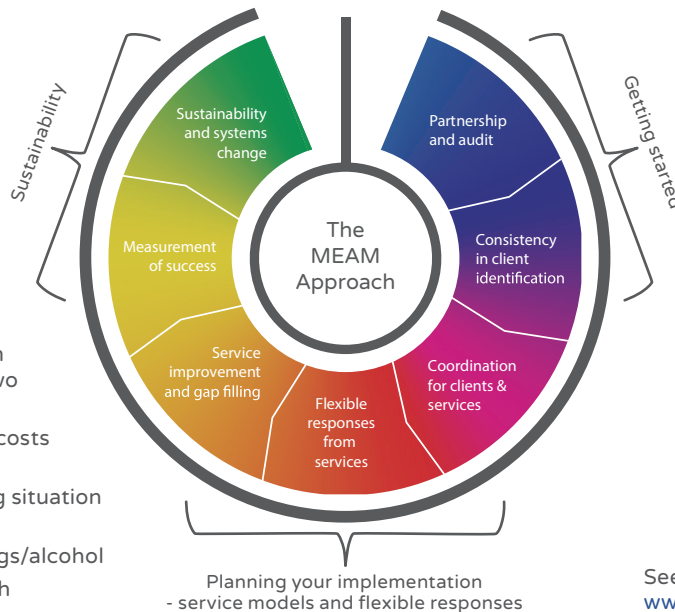

We now want to support more areas to develop better responses for people with multiple needs. Each area will receive a bespoke package of flexible support from MEAM, delivered by expert staff with local knowledge.

This is what areas say about our support:

Local Support

During 2014/15, we have supported ten local areas to design and deliver better coordinated services for people with multiple needs. An independent evaluation of the MEAM pilots, which preceded the MEAM Approach, shows the impact that can be achieved:

- ✓ Up to **26.4%** reduction in service use costs over two years
- ✓ Significant reduction in costs associated with crime
- ✓ **86%** report their housing situation improved
- ✓ **71%** consuming less drugs/alcohol
- ✓ **57%** better mental health

“We would not have been able to coordinate multiple needs services in Sunderland without the knowledge and expertise that our MEAM support has brought to the group”
(Sunderland)

“MEAM has provided invaluable support, insight and drive for our work.”
(Blackburn)

“MEAM acted as a sounding board for us as we developed our programme, providing advice, but not prescribing how things should happen.”
(Cambridgeshire)
